

## IT'S SIMPLY A CASE OF SUPPLY VS. DEMAND

There are only 500 condo hotel units. They will be the only units Atlantis offers that have full kitchens and washers and dryers in the rooms.

Model built by Melvin Denny Ako, Inc., [www.melvinako.com](http://www.melvinako.com).

The 44 direct ocean units will only be sold as two-bedroom units. This means that no more than 456 lucky investors will get a chance to own a piece of this fantastic offshore resort.

Imagine knowing that any time you want to use it, your family can hop a short 45- minute flight from Florida and start enjoying your escape. The kids will absolutely love the pools, beach, sharks, the waterpark and swimming with the dolphins.

For us "big kids," the casinos, nightlife, restaurants and bars will provide endless ways to while away the day. Again, no more than 456 people in the world will have this chance.

People will want this property simply because it is the world-renowned Atlantis, just the same way many people want to be one of the few that own in a prestigious Trump property. The difference here is that there is one and only one Atlantis!
